CASE STUDY

Haebler Construction, a boutique contracting company, wanted to find the right gift to recognize their customers and employees. Although they are part of a very male-orientated industry, the response to this gift of "his and hers" robes was excellent. Employees and customers all loved this robe so much that a second order had to be placed for people requesting one for members of their families.

Werklund wanted to give a high end gift as a wrap up present to the volunteers, donors, educators and employees of Werklund who had participated in a year's program to have an impact on the self esteem of teenagers in the city of Calgary through the Teen Leadership Breakthrough Initiative program.

The theme of the program was centered on Werklund's core values. Kanata's innovative Thank You blanket gave their distributor the idea to do a step and repeat embroidery with their core value words embroidered over the blanket.

Inspire, Passion, Empower and Dream.

The resulting beautiful Kanata throw was perfect for the season. This elegant blanket was gift wrapped with customer supplied chocolate and featured a big beautiful bow for that extra touch of class.

In addition to the distinctive packaging options offered as stock by Kanata, one of a kind gift presentations can be created...

Gift box printed all over to go with the theme of the gift selected.

The customer added "Thank You" in Chinese to customize a gift box for their customer.

Custom manufactured box and wrap for one of a kind gift presentations.
